TAX BENEFIT TO BE RECOGNISED IN SEMBCORP'S 4Q2006 FINANCIAL STATEMENTS

November 6, 2006 - Further to its announcement on July 11, 2006 relating to the Inland Revenue Authority of Singapore's confirmation of Solitaire costs incurred as trade losses of Sembawang Corporation Ltd (Sembawang), SembCorp Industries (SembCorp) announces that the losses available for transfer within the SembCorp Group under the group tax relief system and/or offset against taxable profits of Sembawang, subject to compliance with the respective provisions under the Singapore Income Tax Act, will be fully utilised in 2006.

From our evaluation undertaken together with tax consultants, the estimated tax benefit of these Solitaire expenses amounts to \$155m. Based on the proposed Group Tax Relief Exercise to be completed in December 2006, this tax benefit will be recognised in the financial statements of SembCorp Group for the last quarter of the year ending December 31, 2006.

By Order of the Board

Kwong Sook May

PRESS RELEASE

A FOCUSED SEMBCORP POSTS ROBUST 9M2006 PERFORMANCE

- **PATMI up 202% to record \$643.5 million**
- **PATMI from continuing operations up 42% to \$243.7 million**

Singapore, November 6, 2006 - SembCorp Industries (SembCorp) continued to show a robust performance, posting a record Profit After Tax and Minority Interest (PATMI) of \$643.5 million for the first nine months of 2006 (9M2006), a growth of 202% over the previous year. Strong business fundamentals continued to underpin the Group's strong showing. From the Group's continuing operations, PATMI before exceptional items (EI) grew 42% to \$243.7 million, and turnover climbed 29% to \$5.2 billion.

Growth continued to be driven by SembCorp's utilities and marine engineering businesses. Utilities' contribution to Group PATMI grew a substantial 52% to \$159.4 million, backed by strong performance from its UK operations and positive contributions from Offshore Engineering. Meanwhile, Marine's contribution to Group PATMI rose a significant 47% to \$82.6 million, driven mainly by strong growth in the rig building and ship repair sectors. Marine's orderbook to-date stands at \$6.0 billion, with deliveries and completions stretching till 2009.

The Group completed its divestment of its engineering & construction business with the sale of its remaining 12% of the business in October. It also made progress towards its goal of consolidating its leadership position in the Utilities and Marine businesses. The sale of SMOE and Sembawang Bethlehem to SembCorp Marine in August bolstered capacity and capabilities in support of Marine's continued growth, while the formation of a strategic Middle East beachhead with the landmark acquisition of the Fujairah Independent Water & Power Plant in the United Arab Emirates will continue to provide a platform for growth for the utilities business.

Said SembCorp's Group President & CEO, Mr Tang Kin Fei, "SembCorp will continue to build on our existing businesses and look for opportunities for further growth. Our nine-month scorecard shows that we are well on track to post a good set of results for the full-year."

2006 Outlook

With the exceptional gains recorded to-date, and the potential tax benefit to be recognised, the Group's overall performance for 2006 will be substantially better than that of 2005.

Highlights for SembCorp's 9M2006 Financial Results

- **Record Group PATMI at \$643.5m, up 202%**
- **Strong earnings growth from continuing operations**
 - Turnover of \$5.2bn, up 29%
 - PATMI before EI of \$243.7m, up 42%
- **Sound business fundamentals**
 - Recurring earnings from Utilities
 - Strong growth from Marine
- **Strong returns and financial discipline**
 - ROE (annualised) at 16%
 - Interest cover at 12 times

1e. Notes to Group Profit and Loss Statement

The gross profit margin in 3Q06 and 9M06 was impacted by the provision for contracts in local municipal waste collection sector for Enviro business and the extension of the maintenance inspection for Cogen plant for Utilities business.

The increase in general & administrative expenses in 3Q06 and 9M06 was mainly attributed to higher personnel related costs due to increase in projects / business undertaken by the Group. 9M05 included professional fees incurred in respect of the Solitaire legal case.

The increase in non-operating income in 3Q06 and 9M06 was mainly attributed to higher interest income and gain on sale of investments.

The increase in share of results of associates and joint ventures were attributed to better performance from our associates and joint ventures in Utilities, Marine and Parks businesses.

2c. Notes to Balance Sheet

Group

Due to the sale of SembCorp Logistics Ltd and SembCorp Engineers and Constructors Pte Ltd in April and June 2006 respectively, the Group has ceased to consolidate these entities. As such, most balance sheet items as at September 30, 2006 are lower than December 31, 2005.

The increase in share capital is due to the transfer of share premium account to the share capital arising from the amendments in the Companies (Amendment) Act 2005 (See note 4c), reduced by the capital reduction paid to shareholders. The decrease in Minority Interests is due to the sale of SembCorp Logistics Ltd.

The increase in interests in associates and the corresponding decrease in interests in joint ventures is mainly due to the Group's rationalisation of its Riau investments (previously held under joint ventures) through the consolidation of these investments under an associate, Gallant Venture Ltd, an entity listed on SGX - SESDAQ. The increase in other financial assets is mainly due to the additional investment and fair value adjustments for Cosco Corporation (S) Ltd shares held by SembCorp Marine Ltd.

Inventories and work-in-progress increased as more projects were undertaken by SembCorp Marine Ltd.

Provisions decreased as the Group has made payment for the full and final settlement of the Solitaire arbitration.

Company

The decrease in investment in subsidiaries is due to the sale of SembCorp Logistics Ltd (Logistics) and SembCorp Engineers and Constructors Pte Ltd (E&C) and accordingly the proceeds from these divestments have resulted in an increase in the bank and cash balances.

The decrease in trade & other payables is due to the settlement of intercompany balances during the period.

3.4 Notes to Consolidated Cash Flow Statement

Excluding the payment for Solitaire settlement of \$682.7 million, net cash from operating activities for 9M06 was \$332.7 million as compared to \$643.8 million for the corresponding period last year. The decrease was attributed to the changes in working capital as more projects were undertaken by SembCorp Marine Ltd.

Net cash inflow from investing activities for the 9M06 was \$87.1 million. The Group realised \$784.5 million from the sale of investments. These include the sale of SembCorp Logistics Ltd, SembCorp Engineers and Constructors Pte Ltd, PT Batamindo Investment Cakrawala and PT Bintan Inti Industrial Estate. The Group spent \$748.3 million on acquisitions, expansion and operational capex. These include investment in Gallant Venture Ltd and Cosco Corporation (S) Ltd.

Net cash outflow from financing activities for 9M05 relates mainly to the payment made by the Company and its subsidiary, SembCorp Logistics Ltd, for the special interim dividend and capital reduction exercise. The Group also reduced its external borrowings.

4c. Changes in the Company's share capital

Pursuant to the Companies (Amendment) Act 2005 effective from January 30, 2006, the concept of authorised share capital and par value has been abolished. Amount standing to the credit of share premium account is transferred to share capital as at that date.

During 3Q06, the Company issued 7,146,691 ordinary shares for cash upon the exercise of the options under the Company's Share Option Plan.

As at September 30, 2006, the Company's issued and paid up capital comprises 1,766,017,688 (September 30, 2005: 1,741,922,413) ordinary shares and there were 35,843,398 (September 30, 2005: 48,573,085) unissued ordinary shares under options granted to eligible employees and directors under the Company's Share Option Plan.

5. **AUDIT**

These figures have not been audited or reviewed. However, our auditors have performed certain procedures and enquiries. These procedures are substantially less in scope than an audit or a review in accordance with Singapore Standard on Review Engagements (SSRE) 2410.

6. **AUDITORS' REPORT**

Not applicable.

7. **ACCOUNTING POLICIES**

Except as disclosed in paragraph 8 below, the Group has applied the same accounting policies and methods of computation in the preparation of the financial statements for the current reporting period compared with the audited financial statements as at December 31, 2005.

8. **CHANGES IN ACCOUNTING POLICIES**

The Group has adopted new/revised FRS that have become effective for the financial year beginning January 1, 2006.

In particular, where the Company provides financial guarantee for the indebtedness of other companies within the Group, the Company considers these to be insurance arrangements and treats them as contingent liabilities until such time as they become probable that the Company will be required to make a payment under the guarantee.

The Group does not expect the adoption of the new/revised FRS to have any material impact on the financial statements.

9 (A) **REVIEW OF GROUP PERFORMANCE**

Group Overview

For its continuing operations, the Group achieved turnover of \$5.2 billion in 9M06. The Group's profit attributable to shareholders of the Company (PATMI) before exceptional items (EI) in 9M06 was \$243.6 million compared to \$171.0 million in 9M05, which represents a 42% growth.

The Group also generated strong Economic Value Added of \$551.4 million due to strong operating performance by the Utilities and Marine businesses and the gain on sale of subsidiaries.

Turnover

Utilities and Marine together contributed to 95% of the Group's turnover of \$5.2 billion in 9M06.

Utilities' turnover increased by 16% to \$2.7 billion. Its Singapore and UK operations continued to do well as power prices continue to remain high. However, turnover in its offshore engineering unit declined.

Turnover for SembCorp Marine Ltd (Marine) increased by 63% to \$2.2 billion. This was mainly due to strong growth in its rig building, ship repair and ship building businesses.

The Group's PATMI from its continuing operations in 9M06 rose by 42% to \$243.6 million. The strong growth was mainly contributed by its Utilities and Marine business units. However, its Enviro unit recorded a loss for the quarter.

Utilities' PATMI in 9M06 was higher by 52% over 9M05 primarily due to strong performance from its UK operations and positive contribution from its offshore engineering unit. Utilities also divested its offshore engineering unit and recorded a gain on sale amounting to \$8 million. However, its Singapore operation performance was impacted by the extension of the maintenance inspection for its Cogen plant, which resumed normal operations on August 22, 2006.

The increase in Group's share of PATMI of Marine was due to better operating margins from its rig building and ship repair businesses and better contribution from its associated companies.

The poor performance by Enviro in the 3Q06 was due to impairment made for the fixed assets and provision for contracts relating to the local municipal waste collection sector.

The improvement in Others / Corporate PATMI in 9M06 was mainly attributed to higher contribution from Parks and higher dividend income received from its investments. There was also a one-off impairment of a property and professional fees incurred in respect of Solitaire legal case included in 9M05.

The Group also recorded EI gain of \$392.2 million for 9M06. EI comprised the net gain on sale of subsidiaries, offset by an additional charge arising from the final settlement on the Solitaire legal case. EI in 3Q06 relates to NTA adjustment for the sale of E&C.

9 (B) DISCONTINUED OPERATIONS

Discontinued Operations are the Group's interest in the logistics business and engineering and construction business.

On April 3, 2006, the Group completed the sale of its entire 60.01% stake in SembCorp Logistics Ltd (Logistics). The gain on the sale of Logistics has been recognised in the Group's 1Q06 results.

On June 2, 2006, the Group completed its sale of 88% stake in SembCorp Engineers and Constructors Pte Ltd (E&C). The amount received on completion of the sale was subject to adjustment to be made, based on the audited NTA of E&C as at May 31, 2006. The NTA adjustment of \$1.3 million has been recognised in the Group's 3Q06 results.

On October 17, 2006, the Company sold its remaining 12% stake in E&C to Punj Lloyd for cash consideration of \$4.9 million. The transaction followed the exercise of a call option granted to Punj Lloyd on June 2, 2006. As part of the transaction, E&C has also repaid a term loan of \$15 million plus accrued interest, extended by the Company. With the completion of this sale, the Group ceases to have any interest in E&C.

These divestments are in line with the Group's aim to sharpen its strategic focus.

10. VARIANCE FROM PROSPECT STATEMENT

There has been no significant variance in the operating performance of the Group as compared to previous statements.

11 (A) SUBSEQUENT EVENT

As announced on July 11, 2006, Sembawang Corporation Ltd, a subsidiary of the Company has obtained a favourable tax ruling in respect of the compensation and related legal costs (Solitaire expenses) incurred in the Solitaire arbitration. On November 6, 2006, the Company announced that the estimated tax benefit relating to these Solitaire expenses is about \$155m, based on an evaluation done together with tax consultants. These Solitaire expenses can be used against Sembawang Corporation Ltd's own sources of income as well as for transfer under the Group Tax Relief (GTR) System within SCI Group. The tax benefit of \$155m will be recognized in the 4Q 2006 accounts as the GTR exercise is expected to be completed in December 2006.

11 (B) PROSPECTS

Utilities

Underpinned by long-term contracts, its Singapore centralised utilities operations will continue to generate stable earnings. UK operations are expected to perform better than 2005 due to high UK energy prices and favourable supply contracts secured until end 2007 / early 2008. Our operation in Vietnam is expected to continue to perform well. Our China projects are still in the early phase and one of them has been facing challenges due to the shortage of natural gas in Shanghai.

Overall, the Utilities' ongoing business is expected to achieve stable operating profits in 2006 compared to 2005.

Marine

New orders secured to-date are \$2.4 billion and total net order book as at September 30, 2006, stands at \$6.0 billion with completion and deliveries till 2009.

Demand for ship repair remains strong especially in the specialised market of LNG/LPG gas tankers and container vessels. Prospects for sustained exploration and production activities remain robust despite the recent dip in oil prices which at these levels still strongly underpin the high level of activities. Demand for Floating Production Storage and Offloading (FPSO) vessels, Floating Storage and Offloading (FSO) vessels and Fixed Production Platforms continue to strengthen. Market fundamentals for rig building remain strong attributable to high worldwide utilisation levels, unprecedented high charter rates as well as an aging rig fleet worldwide. Overall, the market outlook for all sectors in the marine and offshore industry remains strong.

Enviro

Enviro has entered into the waste-to-resource market through the acquisition of Jiangsu SembCorp Chunxing Alloy and SembEnviro KK Asia and will focus on waste-to-resource and pre-disposal treatment business for sustainable earnings and growth. The impairment made for the fixed assets and provision for contracts relating to the local municipal waste collection sector has adversely impacted Enviro's 2006 performance.

SCI Group

With the exceptional gains recorded to-date, and the potential tax benefit to be recognised, the Group's overall performance for 2006 will be substantially better than that of 2005.

This release contains forward-looking statements that involve risks and uncertainties. Actual future performance, outcomes and results may differ materially from those expressed in forward-looking statements as a result of a number of risks, uncertainties and assumptions. Representative examples of these factors include (without limitation) general industry and economic conditions, interest rate trends, availability and cost of fuel and materials, cost of capital and capital availability, competition from other companies, shifts in customer demands, customers and partners, changes in operating expenses, including employee wages, benefits and training, governmental and public policy, directives and changes. You are cautioned not to place undue reliance on these forward-looking statements, which are based on current view of the management on future events and impact on the Group.

12. DIVIDEND

No interim dividend for the period ended September 30, 2006 is recommended.

Notes To Segmental Analysis

13a. Business Segments

The Group comprises the following main business segments:

Utilities segment offers a range of fully integrated industrial site services, including power, gas, centralised utilities to clusters of chemical multinational corporations in Singapore and United Kingdom. It also invests in, manages and operates cogeneration, power and water treatment plants in Singapore and in the region. It is also involved in engineering, construction and fabrication of offshore platforms, modules and floating production systems for oil and gas companies.
